Professional Summary

Java Backend Developer with hands-on experience in building backend applications and **microservices** using **Java, Spring Boot, and REST APIs**. Strong understanding of Object-Oriented Programming (OOP), Data Structures, Algorithms, and database management using **Oracle SQL and MySQL**. Skilled in API development, database integration, and working with tools like **Docker, Maven, GitHub, Kafka**, and Microservices architecture. Familiar with frontend technologies including **ReactJS, HTML, CSS, and JavaScript**.

Experience

Associate Software Engineer Agivant Technologies	Jan 2026 – Present Client: TigerGraph
---	--

- **Enhanced query cache performance** in TigerGraph-based backend workflows, achieving **2.1x faster response time** through tuning and performance improvements.
- Implemented REST APIs using Java and Spring Boot for backend services with database integration.
- Engineered microservices architecture with **Docker-based deployments**, Kafka messaging workflows, and backend system debugging.
- Contributed to improving backend application lifecycle and distributed system workflows.

Technical Skills

- **Programming Languages:** Java, SQL, Python
- **Backend Development:** Spring Boot, Spring Framework, Spring MVC, Microservices, REST APIs, Spring Data JPA, Hibernate, JDBC, Spring Security, JWT Authentication
- **Databases:** MySQL, Oracle SQL
- **Messaging & DevOps:** Kafka, Docker, Maven, GitHub
- **Frontend Exposure:** HTML, CSS, JavaScript, ReactJS
- **Core CS:** Data Structures, Algorithms, Object-Oriented Programming, SDLC
- **Tools:** Git, Postman, IntelliJ IDEA, Eclipse, JUnit

Projects

Real-Time TGSRTC Transit System – <i>Java, Spring Boot, React, Leaflet, WebSockets</i>	2025
• Built a real-time bus tracking system using Spring Boot and React. • Implemented WebSocket-based live GPS updates for real-time tracking. • Integrated Leaflet maps for route visualization and live movement tracking. • Designed a crowdsourced tracking system using passenger location sharing.	

Employee Management System – <i>Java, Spring Boot, Spring Data JPA, REST API</i>	2024
• Implemented REST APIs for employee CRUD operations. • Streamlined database interactions using Spring Data JPA. • Designed modular MVC architecture for scalability and maintainability.	

Image Classification using CNN – <i>Python, Machine Learning, OpenCV</i>	2023
• Built a CNN-based image classification model achieving 94% accuracy using OpenCV preprocessing and dataset augmentation. • Preprocessed image datasets and improved training performance. • Streamlined model training workflow to enhance accuracy and efficiency.	

Certifications

Java Full Stack Development – AshokIT 2025

- Completed intensive hands-on training in **Java, Spring Boot, REST APIs, Hibernate, JDBC, MySQL, Microservices, and ReactJS**.
- Built backend and full-stack applications using industry-standard development practices.
- Practiced **API development, debugging, database integration, and deployment** fundamentals.

Education

Indian Institute of Information Technology Ranchi Aug 2020 – Jun 2024
Bachelor of Technology in Computer Science and Engineering – CGPA: 8.70 Ranchi, Jharkhand

Shiv Jyoti Senior Secondary School (C.B.S.E) 2020
Intermediate Education Rajasthan

Ryan International School (C.B.S.E) 2018
Secondary Education Gujarat
